

## OASIS INDOORS from Holly Rickert

The wooded surroundings of this Upper Saddle River, New Jersey, home set the tone for a spa-like master bath designed by Holly Rickert of Ulrich, Ridgewood. "Bringing the outdoors in was one of the main objectives," she explains. The Italian ceramic tile draws its blue, gray and green colors from nature, while the mirror is trimmed in copper. A waterfall-like faucet fills the tub. The hanging glass partition separating the master bedroom and the bath features a hand-etched depiction of Mount Fuji that finishes the look. ☺
